# Our Mandarin Learning Framework

**“I’m not catching up with the lesson, help!!”**

Our **ADAPTIVE 3-TIER SYSTEM** for learners with various paces

- **Mechanical Exercise** - We start with these to make sure you can handle the basic form. These are easiest, and they’re a good place to start if the grammar point is entirely unfamiliar.
- **Improvisational Exercise** - While still providing part of a sentence, we’ll expect you to come up with the rest. This is a bit more demanding and requires more imagination and vocabulary.
- **Free Practice** - Finally, put the grammar points to use for a specific task, such as some kind of discussion, role-play or storytelling. Your teacher will remind you to keep using the grammar points you learnt, and correct you as needed.

## How you will go through each lesson

- ❑ Your assignment and pre-class video for each lesson will be posted to Google Classroom. There you will see what you need to prepare in advance, as well as the exact material (1 to 4 grammar points) your teacher will cover with you in each lesson.
- ❑ In each 120-minute lesson, the following material will be covered by your teachers
  - Vocabulary and Grammar Review (from your previous lessons)
  - Main Grammar Points of the Lesson (using our flexible 3-tier system)
  - Sum-up and Assess (can we move on to the next module, or do you need to keep working on this one? ... plus integrated pronunciation feedback.)

## Anytime Mandarin Benefits
